Ouring the day a few to the stocks

tracted but indifferent attention. the largest pocket encountered and it appears possible that at least another 1,000 tons can be taken out before exhausting all the remaining ore-bearing limestone at the top of the Miller hill.

two other properties, the snow not having been heavy enough to inter-fere with operations. In the spring it fere with operations. In the spring it is expected that several properties will Bingham ... Boston Con. be producing ore and that a lively season will result.

PAYMASTER BULLION.

First Ingot from Property Below St. George on Exhibition.

Provo, Feb. 15.—S. L. Adams of this city who is now operating the Pay-naster mine near St. George under a lease and bond, has sent an eighty-pound ingot of copper matte, 90 per cent copper, which is on exhibition at the Palace drug store. The matte was produced thirty minutes after the blast

A. V. Taylor and others have located sixty-three petroleum claims of 160 acres (Mack Nos. 1 to 63, both inclu-sive), for the Pittsburg-Salt Lake Oil any. The claims are situated east

WILL REDUCE OUTPUT.

Bingham Con. Will Do So to Avoid Enlarging Smelter Now.

According to the following from the Boston. Commercial, which reads as though inspired at headquarters of the company, the Bingham Consolidated will curtail the output of its own mines in order to accommodate the patrons of its smelter without being forced to the necessity at this time of enlarging its plant: "Bingham will reduce the shipment of ores from its own mines in the near future for the purpose of making room at its smelter for about 200 tons of ore daily from the Boston Consolidated property, and also, a little later, for concentrates from the Newhouse Mines commany, whose mill is about ready to begin operations. The Bingham management prefers to smelt a larger tonnage of custom ores for the present and to meanwhile continue the development of its own mines. "The Bingham's Commercial mine yields

agement feels that this character of ore will be greatly sought for its fiuxing qualities a few years hence. When sufficient iron can be obtained from custom ores to make a proper smelter charge, therefore, it is to be expected that the Commercial shipments will be reduced and that the mine may be closed down for brief periods.

"The development work of the past two or three years has blocked out a very large tonnage of ores in the Dalton & Lark, Miner's Dream and Brooklyn mines, and of late a considerable proportion of the company's output has come from these properties. In view of the fact,

Another strike on the Sandstorm. This time it's on the Kruger ground, one of the Sandstorm group, hardly a stone's toss across the gulch from the big bonanza in block 5. And this discovery goes to the credit of James R. Davis—the man who, only a few weeks ago, made the bonanza discovery on the hill opposite, says the Goldfield News.

The parties interested are those associated with Mr. Davis in block 5—Mr. Loftus, Mr. Mayne, Judge Sherman and others. Thus far no sensational values are reported, but pannings have been made indicating values from \$250 to \$50 a ton. This is from a streak about twelve to fourteen inches wide, some of the rock being liberally sprinkled with free gold. Outside of this streak the ledge has been stripped for eight feet, and it pans gold the entire width, \$25 to \$30.

The ledge has the appearance of being a big one—any with free

and it pans gold the entire width, \$25 to \$30.

The ledge has the appearance of being a big one—any width from tweive to forty feet. It cropped not at all at the surface, and its width cannot be determined for some days yet.

The idental to this strike it is a matter of interest to note that the discovery was made within twenty feet of the point where stimler and Marsh found the first gold that drew the attention of the world to this country; and it is believed by all who have visited the ground that right on this historic spot a great mine has been discovered.

Over on block 5, the Loftus-Davis lease, the timber is on the ground for the hoist frame; the incline is going down rapidly; three shifts will go on Saturday, and in ten days the fifty-foot level will be reached. Ore is going into the ore house for sacking at the rate of two tons a day, and the next shipment will be a matter of sixty tons.

centrating plant in the spring to handle the milling ore and put it into a com-mercial product. The wet and sluhy con-dition underground makes a very dis-agreeable task for the miners, and a con-stant changing of men, hence slow prog-ress at present. The end of the year 1855 should see the Silver Shield at least paying its own way."

Utah Stocks in Boston.

(Special to The Herald.) (Special to The Herald.)

James A. Pollock & Co., bankers and brokers, yesterday received over their private wire from Paine, Webber & Co., one of their Boston correspondents, the following copper market comment and record of sales of Utah stocks on the Boston market, with range and closing quotations:

oston, Feb. 15.—The copper market to These, Mr. Ting declares, are the facts about the Wyoming property. Development work is still progressing at the Bluerock, the Bog and one or two other properties, the snow not having been heavy enough to inter-having been heavy enough to without much loss in case of further advance. Quotations:

Ore and Bullion. Ore and bullion settlements in this city esterday, as reported by McCornick & 50., amounted to \$78,900, as follows: Silere, lead, gold and copper ores, \$29,700; base bullion, \$49,200.

Metal Markets.

Silver, 61%c per ounce. Copper (casting), 14%c per pound. Lead, in ore, \$3.50; New York, \$4.45 per 100 pounds.

Mining Notes.

S. M. Levy expects to make a trip to the Buckhorn, at Ophir, today, after which he will return to the Annie Laurie. Silver, which has been inclined to weak-ess for several days past, spruced up-gain yesterday and went to 61% cents

Sunday next.

The delinquent sale of Wabash, due to the recent 5c assessment, is scheduled for tomorrow. It is doubtful if a single share will have to be sold. Development is steadily progressing at the mines of the company and everybody seems very confident of the future, but no news touching conditions underground is being released.

BETTER SHOW OF STRENGTH

panded Yesterday.

ADVANCE IN THE PACIFICS IRREGULAR CLOSING OWING TO

dustrial stocks of the second and lower grades were still in conspicuous feature

Probably the principal influence in the day's operations was the course of the foreign exchanges, indicating quite definitely the ent of the movement of gold to France.
An engagement of three-quarters of a million dollars for shipment to South America did not change this conviction. although it is true that this operation indicates a remaining command of our gold supply for the benefit of London. But symptoms of relaxation in the foreign money market and the symptoms of the sym eign money markets were unmistaka-bly shown and were effective in low-

oly shown and were effective in low-ering the exchange rate here. A fur-ther advance in sterling at Paris was indicative of the satisfaction of the requirements of that center. Large shipments of gold are to be received shortly in London and open market discounts declined there, giving rise to a belief that the Bank of Eng-land will reduce its official rate tomorper ounce.

Ed F. Freudenthal, superintendent of the Majestic properties, came up from Milford yesterday morning intending to return tonight.

Nine cars of ore from Tintic, four from Tonopah and two frim Bingham were reported at the Taylor & Brunton sampler yesterday morning.

A. A. Pike, engineer at the Daly-West company's property, is down from the Park enjoying a much needed vacation and rest. Mr. Pike is one of the expert hoisting engineers of the camp.

M. M. Johnson, manager of the Cactus bonanza, left for Newhouse last night to see how matters have been moving at the property since his last visit, late in January, and previous to his pilgrimage into British Columbia.

L. A. Jeffs returned from a ten-day trip to Chicago, where he has been on mining business, Tuesday night. While the trip has been a successful one, Mr. Jeffs says, there is nothing yet which he can release for publication.

Goldfield Review: On the Great Bend No. 2. in the west shaft, a pay death of the cantrol and open market discounts deglined there, giving rise to a belief that the Bank of England will reduce its official rate tomorrow. Rumors of peace negotiations were again an effective force in foreign markets and reflected beneficial influence here. Prices had the benefit as well of rumors of some special developments bearing upon values of individual stocks. There was a strong demand for Ontario & Western which was explained about the stock exchange by the assertion that the control of this property, recently acquired for the New York, New Haven & Hartford, was to be turned over to the New York Central to harmonize objections of the controllers of that property to the extension of New Hayen influence into the trunk line field. Besides this movement in Ontario & Western cheerful reports of the trade in anthractite helped the coalers. Reading showed a continued effect of profit taking.

The advance in Amalgamated of the care again an effective force in foreign market discounts deglined there, giving rise to a belief that the Bank of E

steel industrials had some extension, but met with a degree of pressure. The

Lark, Miner's Dream and Brooklyn mines, and of late a considerable proportion of the future, but no new strate a considerable proportion of the future, but no new strates and the company and everybody seems very interest the account of the future of the future of the strategy of the constant of the company's milling plant at the company are far the company's milling plant at the company are far the company company cannot as yet, because of incompany the latest personal their resources until this tutned is completed. Volume of Dealings in Stocks Ex-

"This stratum of ore-bearing lime-stone is entirely eroded down to the quartzite on the north, northeast and northwest sides of the mountain toward the Dutchman, Whirlwind, Bluerock, Hot Stuff and other promising mines in which there is room for the larger and probably more numerous ore pockets than could possibly exist in the Miller peak around the Wyoming claim. The peak around the Wyoming claim. The demand for Mass was good old Miller Mining company took from the Miller hill some 8,000 tons of ore worth about \$300,000, gross."

Quotations:

Boston, Feb. 15.—The copper market to-day showed sustained strength, with more activity than we have had for some time. Mohawk advanced from 54 on a buying order for 500 shares executed by a house with lake connections. The declaration of a \$5 dividend on Wolverine caused an advance of \$5 in the stock, the buying principally from New York, Greene Consolidated was well bought and advanced to 27½c, with prospects of going higher. The demand for Mass was good, but the traders are selling some of the stock which they bought lower down and no advance in price was made. Copper worth about \$300,000, gross." came into evidence at the higher level Intern was an additional modifying factor in Intern'l Pump .

Preferred predominance in speculation of these stocks almost invariably causes.

Probably the principal influence in the day's operations was the course of

Metal Markets. New York, Feb. 15.—The London tin market reported a decided advance, closing at £132 16s for spot and £130 17s 6d for futures. Locally the market remains quiet. Supplies are said to be increasing, but the advance abroad helped the tone of the market, which was quoted steady at 29.25@29.50.

The London copper market was higher also, with private cables reporting a demand from China. Spot there closed at £36 5s, and futures at £68 12s 6d. Locally the market remains quiet, but the

GRAIN AND PROVISIONS.

Chicago, Feb. 15.—From the start the wheat market had a strong undertone. Shorts in May started to cover in lively fashion as soon as the market opened, initial quotations on May were unchanged fashion as soon as the market opened, initial quotations on May were unchanged to % higher at 1.18 to 1.18%. July was up a shade to %60% at 1.67% to 1.62. Within a few minutes shorts had bid up the price of May to 1.18%. July went up to 1.02%. Commission houses also fair purchasers, higher cables and small receipts, northwest being influences that tended to stimulate speculative demand. The advance, however, met with active liquid ation by a prominent holder. Before offerings were assimilated some reaction in prices occurred. July wheat especially became heavy, falling below the close of the previous session. Under selling by commission houses and pit traders, the price of July dropped to 1.61%. The re-

Renewed covering by shorts soon started prices upward again. Throughout the remainder of the session sentiment was extremely bullish. Both May and July street buying being credited to Wall street buying being credited to July and street closed fairly strong, with May at 121% and July advanced to 1.01% 01.02%. The market closed fairly strong with May at 1.19% 01.19%. Final quotations on July were at 1.02%.

Clearances of wheat and flour were equal to 29.000 bushels. The world's visible supply, as shown by Bradstreet's increased 782.000 bushels. Primary recipits were 285.300 bushels, Compared with 150.000 a year ago. Minneapolis, Duluth and Chicago reported receipts of 218 cars, 1 against 273 cars last week and 290 cars 1 ayear ago.

Notice of Stockholders' Meeting.

Notice of Stockholders' Meeting.

Notice Is hereby given that the annual meeting of the stockholders of Beck's Sait company, a corporation of Utah, is hereby called and will be held at the parlors of the Wilson hotel in Sait Lake City, Utah, on Friday, Feb. 3, 1905, at 1 p. m.

This meeting was called in accordance with the articles of incorporation of said company by reason of the fact that said company failed to hold its regular annual meeting for the year 1904, and is called at the above place for the reason that it has no general office at said Sait Lake City, and is called for the purpose of electing a board of directors for the ensuing year and to transact such other and further business as may come before the stockholders.

By order of the president.

By R. L. TAYLOR, Secretary.

The holding of the foregoing stockholders' meeting is hereby postponed, to be held at the same place as above specified, and will be held March 2d, 1905, at 1 p. m. By order of the board of directors.

R. L. TAYLOR, Secretary.
